

About Me

Multifaceted IT Executive and Media Producer who's got experience in designing and pitching multi-million dollar IT infrastructures/teams to investors and executing the capital raised.

I have 14 years of experience and specialized knowledge in the field of Computer Science and web development project management.

Experience

CTO

GoPato / On-site & Remote / May 2018 - August 2018

- Had a key role in securing a 1.5 million dollar investment from Latin American investment firm Cuestamoras.
- Directed all employees in IT departments to attain the company's strategic goals.
- Provided technical leadership and training for the rest of the company.

Co-Founder and CTO

Kune S.R.L. / On-site & Remote / July 2017 - Present

- Research, architect and develop a strategic plan to build a full-stack cross-platform e-commerce and event management solution for Desktop, Web, and Mobile (iOS) which involves using Facebook's open-source projects: React.js, and React Native.
- Communicate with stakeholders and customers to ensure the company's technologies are developed and used appropriately.
- Find and recruit top IT talent to incorporate into leadership roles.

Co-Founder and General Manager

TicoWebMedia / On-site & Remote / April 2010 - August 2017

- Co-founded and managed a near-shore web design and development shop which handled multiple mid-term and long-term contracts for digital branding and software development.
- Implemented hiring practices for both on-site and remote web developers.
- Worked along-side team of project managers to set client-expectations and delivery schedules.
- Managed investor relationships and elaborated most company related reports, including: revenue projections, team-efficiency, quarterly reports.

Head of Web Production Department

PerHead Ltd. / On-site / July 2010 - August 2012

- Co-founded and managed a near-shore web design and development shop which handled Hiring and trained a team consisting of ten professionals.
- Implemented workflow and project management solutions which were crucial in provoking a shift in the company's business model, from having an 83% Telephone Service Offering income to having a 90% Internet Solutions based income.
